

LYNDSEY CLARKE

--animation-- illustration --sculpture--

2D Animator

Hello this is lyndsey clarke. I have been informed of a position that may be available for me at Enter yes to be part of the 2D animation team that is at current comprised of two friends of mine who recommended me to this role. receiving a placement alongside the team would be very beneficial for me to gain experience in this industry of work.

Having seen the 2D animation that enter yes creates and the many creative projects taking on different mediums. I believe I would be a great fit as I am very flexible with styles, I am confident in my 2D animation skills and very strong in the animation pipeline. I would definitely be set of learning more from the team to further my skillset and to help create amazing projects.

Attached I have included my most relevant work to show what I can offer the team. I am very motivated to learn and to work for Enter Yes and I am willing to help in anyway towards any project I am very passionate about this opportunity and I hope to hear back from you.

thank you,

Lyndsey clarke
