**THEME – AESTHETICS**

**SUNNY WU**

Sunny Wu is a New York based artist who works with an illustrative art style. Her illustrations provide a playful and fun color theme and set the scene of various women in their everyday life, focusing strongly on the beauty of such activities and focal points that go unnoticed or are unloved by many.

Sunny's aesthetic is bright and strange as she finds that her continuous theme describes how she looks at the world around her.

Her aesthetic builds on her desire to promote unfamiliarity's and aspects of the human body or landscape that people don't want to discuss or choose to ignore. I find inspiration in this to promote topics such as these in modern art. To enable women, men and others to embrace their aesthetics and peculiarities, otherwise hidden in past art movements.
