

# Think-Aloud Protocol

#1

User Goal / Task	Interface Part / Location	Verbal Protocol
Identify what type of app this is	Start Screen	Looks good. Looks like an opening screen for a game that involves you escaping to mars. You would hit the play button to start the game which is clearly labeled out.
Identify what you can do from the Homescreen	Home Screen	Elements and play, I actually wouldn't know what one to hit on first. I do not think that that is very clear. It looks like you're in a spaceship and you're about to start the game.
Find an interesting fact about Titanium.	Home Screen to Elements Page to Titanium Page	Ok so I would hit elements and then I would select titanium.
Complete level 1	Air levels page	Right reads instructions. Right so you hit oxygen up to the line, hit carbon dioxide down to the line shown, and nitrogen hit it up to the line shown.
Complete level 2.	Water elements page.	Reads instructions H <sub>2</sub> O reads further instructions. So then you just drag the O in and the H <sub>2</sub> O. And do you just do that for each bottle oh you have to put the O in first. Right
