Find an interesting fact about Titanium	Homescreen - elements page - Titanium page	"Em elements (elicks elements) then I would select titanium. Ok so hit it "Cool fact" and then the facts come up"
Navigate back to the Homepage	Titanium page - elements page - Titanium page	Right do I hit that was settings. Hit the use home button maybe. Twice, three times (thinks they have to go back to the start page)
Identify what the app is for	Start Screen	Well I am seeing a title escape to Mars and maybe a picture behind it so I'm thinking this is probably some kind of game. Maybe for kids.
Identify what you do from the Home Screen.	Home Screen	This looks to me like I'm inside the spaceship and I'm at the control center and I'm making my way to Mars and I'm thinking I'm maybe going to have to learn how to use instructions to operate ship.
Complete Level 1	Air level pages.	Readed instructions, wants to go back to homescreen as there is a control panel there. I'm thinking oxygen that's pretty important I'm thinking carbon dioxide is something we want less of so I'm going to bring that down. Then nitrogen not sure where that sits but lets bring that up a bit more.
