

Teacher Feedback on Apollo Website

Your thoughts on using the website would be appreciated.

Is it easy to navigate? Completed by Mrs Joyce Primary Two Class Teacher)

Yes very easily navigated, uncomplicated and simple laid out.

First Learn button took you to background information at the bottom of the page.

- **Maybe learn more buttons could give you more information on the astronauts.**
- **Or you have one more learn button which takes you to the mission tab.**

Can Information be found easily?

Yes information found very easily.

What interactive elements do you like?

Children really enjoyed the videos.

They were very engaged especially during the first launch video and enjoyed the countdown.

Did you learn about the Apollo Mission?

Yes we had touched on the mission during our space topic but they definitely gained more knowledge having navigated the website.

Are you happy with your overall experience?

Yes I have saved the website to my favourites and intend to use the website in the future.

Is there anything you would like the designer to add?

On return tab video start playing immediately, possibly change this so that they don't start to play until user activates them.

Any Further comments.

Children gave the website the thumbs up!

- **Things children liked**
- **Hearing the famous words**
- **The Celebration Video**
- **Launch Video**
- **Moon footage.**

Mary Joyce Primary Two Class Teacher adds “As space is one of our World Around Us Curriculum topics it was excellent having all the videos on one site rather than having to go searching for them on other websites or YouTube. Saves lots of time which is very important to teachers!!!”
