

Usability Testing

Users	Test 1: Easy to Navigate	Test 2: Can find the information easily	Test 3: What interactive elements/Images do you like?	Are you happy with your overall experience?	Is there anything you would like the designer to add?	Further Comments	Figure
P7 Pupil- Conor	Yes, the website is very easy because it is all separated into different sections	Information is easy to find because they are all in small groups of writing not long paragraphs	I like the way you can see short videos of what was happening, I can watch the first rocket take off.	Yes, this is an amazing website	Maybe for the start area if the designers added a little rocket heading to the moon because it's about the first rocket on the moon.	Maybe you could a little more colour to the eagles.	See Figure 1
P7 Pupil- Ryan	Simple to navigate Scroll and click	Simple to find	I like the videos	Overall 6/10	Make a better background like a space one. Give more into on how the ship was built	Font is a bit odd. There is no sound. Would you like to See information about race to the moon.	See Figure 2

P7 Pupil Dara	The website is very easy to navigate and to find information and find videos	Yes. At the bottom of every video, it shows information: When it happened, how long it took and where it was!	I love the three buttons at the top: Mission, landing, Return.	I am very happy. But one thing, the videos lag a lot. When I'm in the middle of a video it just stops.	I wish the designer to add a few more images to the home page.		See Figure 3
P7 Pupil: Lucy	It is easy to navigate because it's a small website with good information	Yes, it shows about the people being born and what they worked and buttons that say learn more show me more stuff.	I like the videos because it shows how get there called take off and the icons for the information	Yes, I learned a lot about space and getting lots of information	Add some videos to the front page	I want some websites with second	See Figure 4
P4 Pupil: Ethan	Yes, the website is very easy to navigate	Yes, it was easy to find information	I learn the landing and taking off elements	Yes, I enjoyed reading about the Apollo Mission	I would like the designer to add some sound.	No	See Figure 5

P4 Pupil: Lily	Yes, this website is very easy to use	I can find information easily on this website.	The interactive elements I like is, where it says mission, landing and return and when you click on it, it tells you everything about that.	It is good but it could be better if there was sound	More information and sound!	More information about the website and sound.	See Figure 6
P4 Pupil: Adam	Yes, it is and it's a good website for learning about space.	Yes, I can, all you must do is scroll down and it's there	It like how it's all about space and astronauts	Yes, I am	Nothing really	It like the pictures of the rockets taking off with smoke coming out it	See Figure 7
P4 Pupil: Ben	Yes, the website is easy to navigate	Yes, but some writing can be hard to read	I like the videos but if there was sound it would be better	Yes	A wee bit more information and sound to the videos.	No	See Figure 8
P2 Teacher	Yes-very easily navigated, uncomplicated and simply laid out.	Yes, information found very easily	Children really enjoyed the videos. They were very engaged especially during	Yes, I have saved the website to my favorites and instead to use	On the return tab the videos start playing immediately, possibly change this so	Children gave the website the thumb up! Things the children liked.	See Figure 9

	1 st learn more buttons could give you more info on the astronauts or just have one learn more button which takes you to the mission tab.		the first launch video and enjoyed the countdown	the website in the future.	that they don't start to play until the user activates them.	Hearing the famous words. The celebration videos Launch video. Moon footage. It was excellent having all the video on one side rather than having to go searching for them on other websites or YouTube. Saves lots of time which is very important to teachers.
